

P-CIS Enables One Child, One CANS and Joint Care Planning for California

- ✓ Integrate all electronic records to unite information in one place
- ✓ Safely share information between agencies
- ✓ Perform joint care planning to create aligned care plans
- ✓ Ease the burden of data collection
- ✓ Ease the burden of data reporting to authorities
- ✓ Reduce duplicate data entry
- ✓ Capture child/youth, family and natural support voice
- ✓ Email/text assessments or fidelity measures to CFT members to complete
- ✓ Provide plans and progress back to point of care and to the family
- ✓ Allow monitoring of care for people and programs in real-time
- ✓ Evaluate programs, practices, services and fidelity in real-time
- ✓ Identify sets of family circumstances which are underserved
- ✓ Meet the requirements of Families First Act
