

SCOPE OF WORK

I. PURPOSE

Tarrant County Veterans Treatment Court (TCVTC) seeks to habilitate Justice-Involved Veterans (JIVs) in our community. This is accomplished by diverting JIVs from the traditional criminal justice system and by partnering with local Vendors to provide them with the services needed to lead a productive and law-abiding lifestyle, reducing recidivism, improving mental health recovery, and enabling successful reentry into the community.

II. BACKGROUND

- A. The Tarrant County Veterans Treatment Court (TCVTC) is a pretrial diversion program that seeks to divert eligible Justice Involved Veterans (JIVs) from traditional prosecution and connect them with comprehensive support services, which include mental health counseling, substance abuse treatment, education, and vocational training, and housing assistance. Post-adjudicated JIVs may be court-ordered to participate in the program due to the supervision and services available to program participants. Per Texas Government Code 1474 CH124, eligible applicants must be veteran or current members of the United States armed forces, including a member of the reserves, National Guard, or State Guard, who suffers from a brain injury, mental illness, or mental disorder, including post-traumatic stress disorder, or was a victim of military sexual trauma if the injury, illness, disorder, or trauma occurred during or resulted from the defendant's military service; and affected the defendant's criminal conduct at issue in the case; or is a defendant whose participation in a veterans treatment court program, considering the circumstances of the defendant's conduct, personal and social background, and criminal history, is likely to achieve the objective of ensuring public safety through rehabilitation of the veteran.
