The invoices must list the following information: contract and confirmation purchase order numbers (if any), item numbers, description of items, quantities, unit prices, and extended totals. Payments will be computed in accordance with any applicable unit prices bid. Payments will be made as soon thereafter as the regular course of business will allow; provided, however, that payments shall be made no later than thirty (30) calendar days following receipt of the statement for goods received and services completed. “

B. Delete GTC 5.4.6 Payment for Delivered Materials or Equipment in its entirety and replace it with the following

“(a) No payment for any material or equipment that is affixed, movable or removable, delivered to the site of the work under the contract will be made until said material or equipment is incorporated into the parts of the project required to be constructed under the contract. Payment for the delivered material or equipment shall be included in the monthly progress payment under the appropriate cost item.
(b) Specialized or Special Ordered Materials, Equipment. The Officer-in-Charge may, to the extent provided for in the contract, include in the monthly estimate for progress payment the delivered cost of specialized materials, special ordered materials or equipment usable only for the contract. Such inclusion in the monthly estimate will be allowed only if all costs are substantiated by evidence of delivery and payment, and only for such materials or equipment as are specifically described or referred to in the contract as being the subject matter for such inclusion in the monthly estimate for progress payment. Payment to the Contractor shall not terminate the Contractor's responsibility or ownership of such materials or equipment until incorporated in place and accepted by the Officer-in-Charge. The Contractor shall be responsible for the safekeeping of such specialized materials or equipment until incorporated into the work and accepted by the Officer-in-Charge. The amount included for payment under this subsection shall be subject to the retention requirement.”

III. CONTRACTOR PERFORMANCE RECORDS.

The City may maintain records pertaining to the Contractor's performance on contracts with the City. The Contractor may be required to participate in performance assessment activities during or after the performance of the contract. Contractor performance records may be used to determine a contractor's responsibility, qualifications, and eligibility for the award of future contracts with the City.

IV. ESTIMATED GROSS COLLECTIONS.

The average estimated monthly gross collections as specified in Appendix C: Pricing/Certifications for the Project are only estimates which are subject to change by the CITY, and shall not be deemed to be the actual gross collections to be collected for each month during the period of the contract. The gross income to be collected from the Project for each month of the contract period may vary. If the average estimated monthly gross collections as specified in Appendix C: Pricing/Certifications should fail to materialize, such failure shall not constitute grounds for equitable adjustment under the contract.

V. OFFICER-IN-CHARGE.

For the purposes of this contract, the Officer-in-Charge (OIC) is the Director of Housing and Land Management (HLM) or HLM designee. The OIC can be reached at (808) 768-4277.

The CONTRACTOR shall name the CITY as an additional loss payee.

The CONTRACTOR shall furnish, at no cost or expense to the CITY, a certificate of such coverage upon request from the CITY after award. The CONTRACTOR shall provide the CITY with a current certificate any time an employee is added to the Project that will handle or have custody or control of any Project funds.

The CONTRACTOR agrees to deposit with the CITY a valid certificate necessary to satisfy the CITY and that the CONTRACTOR is in compliance with provisions of the AGREEMENT and shall keep such bond or policy in effect with the CITY during the entire term of the contract and throughout all extensions.

Failure of the CONTRACTOR to provide and keep in force such bond or policy shall be regarded as material default under this AGREEMENT. The CITY shall be entitled to exercise any or all of the remedies provided in this AGREEMENT for such default of the CONTRACTOR.

The CONTRACTOR shall provide the CITY with an updated and current list of employees working on the Project.

The CONTRACTOR's cost of the Fidelity Bond or crime insurance policy shall not be considered as an operating expense.

VIII. HAWAII BIDDER/OFFEROR PREFERENCE.

If the Contractor is subject to the Hawaii Bidder/Offeror preference and fails to maintain the requirements of a Hawaii Bidder/Offeror throughout the entirety of the contract, the Contractor shall be subject to a reduction of price equal to the value of the preference applied. APPENDIX E: GENERAL TERMS AND CONDITIONS

General Terms and Conditions for the City and County of Honolulu dated 2/1/15

The General Terms and Conditions (GTC) for the City and County of Honolulu dated 2/1/15 shall apply. If not physically attached, it shall be incorporated by reference herein and referred to as the "General Conditions." Copies may be obtained online at www.honolulu.gov/pur ; click on the link titled: " Instructions, Terms & Conditions".

APPENDIX F: CHILD CARE COMPLIANCE ADDENDUM (City-Owned Multifamily Housing)

This Child Care Compliance is incorporated into and made part of all leases, property management agreements, and house rules for the properties owned by the City and County of Honolulu and managed by and through its Department of Housing and Land Management. In the event of any conflict between this Addendum and any leases, property management agreements, or house rules, this Addendum shall control.

1. Permitted Residential Use — Licensed Family Child Care

Notwithstanding any provision of any rental agreements, leases, property management agreements, or house rules to the contrary, the operation of a licensed family child care home within a residential unit shall be deemed a permitted residential use, provided such use complies with zoning restrictions and the operator holds and maintains all required State and City licenses, registrations, and approvals. Licensed family child care operations shall not be treated as a prohibited business use, commercial activity, or non-residential use for purposes of lease enforcement, occupancy restrictions, or house rules. General lease or house rule provisions limiting use to "residential purposes only" or use as a "private dwelling," or prohibiting "business" or "commercial" use or activity (collectively, "**Residential Use Restrictions**") shall not be interpreted or enforced to restrict lawful licensed family child care home operations.

No property manager, agent, or contractor acting on behalf of the City may:

- A. Based upon a contention that a licensed family child care home violates a Residential Use Restriction:
 - Issue a notice of violation, notice to cure, notice of lease termination, or notice of non-renewal to any tenant; or
 - Require a licensed family child care home to cease operations.
- B. Impose conditions, approvals, or restrictions on licensed family child care home operations that are not equally applicable to all other tenants, occupants and guests of the subject property; or
- C. Apply or enforce any rules, restrictions or requirements in a discriminatory manner with the purpose of unduly impeding, undermining, or burdening a licensed family care home operation.

Any concern, complaint, or potential non-compliance relating to family childcare home operations must be elevated to the Department of Housing and Land Management ("**HLM**") for review before enforcement action is taken. Property managers shall coordinate with HLM before taking action that could affect a licensed family child care home.

2. Operational Conditions and Building Management Requirements

While licensed family child care homes are not violations of Residential Use Restrictions, this Addendum does not exempt tenants operating family child care homes from other rental

agreement and lease provisions, building rules, house rules, and operational requirement which are generally applicable and promote the safe, efficient, orderly, and fair operation of the subject property for the common benefit of all occupants. In addition, all tenants or residents operating licensed family child care homes shall comply with the provisions of this Addendum. Any breaches of such provisions, rules, and requirements by family child care home operators or activities shall be addressed in accordance with the foregoing Paragraph 1, and applicable provisions of the lease or rental agreement.

A. Compliance with House Rules and Building Policies.

Operators of licensed family child care homes shall comply with all generally applicable house rules, building policies, and security procedures, including those relating to:

- Building access and security protocols;
- Use of common areas;
- Noise, sanitation, and safety standards; and
- Conduct of residents, guests, and visitors.

B. Loading Zones, Parking, and Circulation.

Licensed family child care home operations shall not obstruct or misuse loading zones, fire lanes, emergency access routes, or designated parking areas, including for routine drop-off or pick-up activities, unless expressly authorized by building management. Loading zones shall not be used for recurring child care drop-off or pick-up. Parents and guardians shall comply with posted parking and circulation rules applicable to all building users.

C. Security and Building Access.

Parents, guardians, and other authorized child care participants shall comply with applicable building security procedures, including sign-in/sign-out requirements; use designated building entrances; and adhere to any visitor access controls applicable to all non-residents. Nothing herein authorizes circumvention of building security protocols.

D. Utilities and Cost Recovery.

Where utilities (including electricity, water, refuse, or similar services) are paid or subsidized by the City or property owner, HLM may, in its sole discretion, evaluate whether licensed family child care home operations result in measurable incremental utility usage beyond typical residential consumption and implement reasonable, lawful mechanisms to recapture or allocate such incremental costs. Operators will be provided advance notice and an opportunity to review or comment on proposed methodologies. No utility cost recovery shall be imposed in a manner that functions as a prohibition or penalty on lawful family child care home operations.

E. Insurance.

Tenants and residents operating a licensed family child care home shall comply with all applicable federal, state, and local laws and requirements relating to liability insurance

coverage, including but not limited to Hawaii Revised Statutes Section 346-157, as may be amended.

Proof of compliance with such requirements shall be provided to HLM and the property manager upon request.

F. Documentation.

Tenants and residents operating family child care homes shall provide copies of their valid and current business registration, license, certificates of insurance showing they have obtained the insurance required by this Addendum, and any other documentation reasonably required to demonstrate that the family child care home is in compliance with legal requirements.

3. Indemnity

To the fullest extent permitted by law, any resident or occupant operating a licensed family child care home within a City-owned property ("**Child Care Operator**") shall defend, indemnify, and hold harmless the City and County of Honolulu, its officers, employees, agents, contractors, and representatives, from and against any and all claims, demands, actions, damages, losses, liabilities, costs, and expenses (including reasonable attorneys' fees and court costs) arising out of or related to:

- The operation or conduct of the licensed family child care home;
- Any act or omission of the Child Care Operator, the Child Care Operator's employees, assistants, agents, clients, invitees, or participants;
- Any injury to persons or damage to property occurring in connection with the child care operation, including, but not limited to, any injury to a child that is subject to the care of the family child care home, or to any of the child's relatives, guardians, or caretakers, that occur within the family child care home or on the common elements of the City property in which the family child care home is located; or
- Any failure by the Child Care Operator to comply with applicable licensing, health, safety, or regulatory requirements.

This indemnification obligation shall apply regardless of whether the claim arises during drop-off, pick-up, or hours of operation, and shall survive termination or expiration of the underlying lease or agreement.

4. No Prejudice to City's Rights; no Third-Party Beneficiaries

This Addendum shall not be construed to waive, limit, or otherwise prejudice the legal rights or remedies available to the City for any breach or default of a lease or rental agreement pertaining to City-owned property. In addition, this Addendum shall not be construed to limit or prejudice the City's right to act to protect the health or safety of any person or to prevent damage to property. This Addendum is not intended to and shall not confer any right or benefit on any person other than the parties hereto.
